

# S Square Technologies

Let me brief you about our company, we are professional recruiters and help candidates like you to get their dream job in one of the fortune companies just under 60 to 75 days. It is basically a service we offer in which we build your resume and market your profile through our sources and land you a full time job in just under 60 days.

## Scope of Services

- Grab your Job Training Program. Our **“Grab your Job”** training program is meant to assist Client in finding their “dream job” by giving Client access to one-on-one training by a recruiter, and access to a proprietary online training platform based on extensive personal experience, testing and research
- Bonus Content. The **“Grab your Job”** program may also, at its sole discretion, make available additional bonus content to Client, such as templates, guides and study plans.
- Program Support. **“Grab your Job”** will make available to Client a support desk to resolve any technical issues, and to answer questions specific to the training materials.

## What we do? (Marketing)

- We will assign a personal recruiters team of 2 or 3 agents who will manage and market only your profile till you don't get the job. He will apply on 100s of job portals and it will not do less than 300 applications on daily basis and this way will generate more and more interviews for you.
- You just have to concentrate on cracking those interviews to get the opening. Also for certain companies we do have direct contacts so for those companies your resume will be directly on the table of hiring managers and delivery managers . and all this will be from fortune companies as we do not work with start ups or unverified companies
- Our marketing team is specialized in recruiting full time roles for any industry level . We have better and a deeper knowledge Understanding the targeted job segments. As a result we can provide you a valuable insights and useful advice that can help you to get a job much quicker than others.
